NGUYEN TRONG DAI
Software Developer

115/100, Le Van Sy, ward 13, Hồ Chí Minh City   nguyendai.coder@gmail.com   037.562.9888

OBJECTIVE

My goal is to be a good web developer, knowledgeable about everything involved in it. I will do everything to improve my knowledge, and learn new things. My wish is to work at the company as Web Development in a dynamic, open, challenging environment. Also learn how to take responsibility and follow company rules. Since then, help me improve my knowledge and skills better, contribute a part to the development of the company.

WORK EXPERIENCE

BNK SOLUTION
12/2020 - NOW

FULLSTACK WEB DEVELOPER

Currently, I am working and participating in software development, as a software engineer at CIMB Bank Vietnam, which is the first digital bank in Vietnam.The application I am currently developing is called: Octo web, it was built by ReactJs for the purpose of helping to manage card information, support money transfer,... for bank partners.
Main technology used: NodeJs (NestJs), ReactJs (Typescript)

ANT-TECH
11/2019 - 11/2020

FULLSTACK WEB DEVELOPER

I was involved in the development of a social networking project for clients from France, which is a wonderful project called "Joynit". It gives you the opportunity to create events for individuals or organizations. It can do anything for you, your job is just create an event and invite your friends. Left we will solve for you.
In addition, it allows you to create a community and everyone can join it, we can create events for the community and everyone in the same community can talk to each other. It makes it easy to manage everything, and there's a lot of fun about this product. Try this interesting product.
Main technology used: NodeJs (NestJs), Angular
